7 Ways to Overcome Procrastination

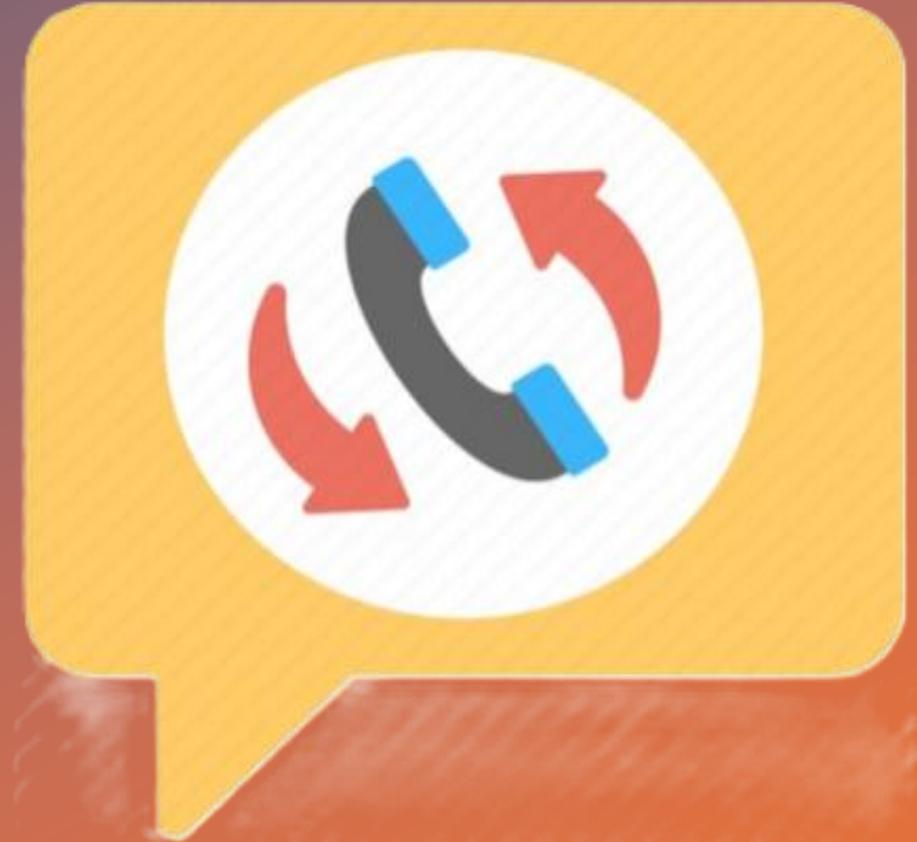

by @inner_drive | www.innerdrive.co.uk

- 1 Do the Task for Just a few Minutes**
Use the Zeigarnick effect - once you start something your brain remains alert until you finish it.
- 2 Do the Hard Tasks First**
Doing the hard tasks while your brain is still fresh means you are less likely to give up on them or procrastinate.
- 3 Believe in Your Ability**
You can do it, just implement the skills and strategies you have learnt to self-regulate.
- 4 Manage your environment**
Control it don't let it control you. Get rid of distractions especially that lovely beguiling phone of yours.
- 5 Set yourself Short Deadlines**
Impending deadlines get you going. So go ahead set yourself short deadlines.
- 6 Model Success**
Who do you know that has done this task well? What did they do? Copy what they did.
- 7 Make the Task Harder**
Sounds counterintuitive but it can make the task more interesting.
