

Dear Parents and Carers,

We are pleased to be able to offer our students access to a range of excellent, discounted, revision resources for GCSE Science. By purchasing through the school, families can access these at half the usual price.

CGP Revision and Work Books

CGP books are widely recognised as some of the best revision resources available for GCSEs. They are clear, student-friendly, and carefully structured to cover all required content. Each revision guide provides concise explanations of key topics, while the accompanying workbooks give students the chance to practise applying their knowledge through a wide range of questions.

The discounted prices are as follows:

- **Triple Science Students (10S1)**
 - Revision guides (set of 3): **£10.50**
 - Workbooks (set of 3): **£13.50**
- **Combined Science Students (10S2a, 10S2b, 10S4, 10S5)**
 - Revision guide: **£6.50**
 - Workbook: **£7.50**

These resources are highly recommended for regular use at home, both alongside classwork and in preparation for assessments and exams.

CognitoEdu Subscription

In addition to the CGP books, we can also offer students a hugely reduced subscription to *CognitoEdu*, a premium online learning platform for Science. Normally costing **£10 per month**, through the school we can secure access for just **£10 per year**. CognitoEdu includes:

- Short, high-quality explanatory videos for every GCSE Science topic
- Follow-up questions to check understanding
- Exam-style questions and real past-paper questions sorted by topic

This is a fantastic, interactive tool to support independent revision and consolidate learning. To qualify for the school discount, we will need at least **100 students** to sign up. If this number is not reached, all payments for Cognito subscriptions will be fully refunded.

Free Science Revision resources

There are also plenty of free science revision platform. Including free version of Cognito (though students can only access a limited number of questions/day), Seneca and BBC bitesize.

Next Steps

If you would like to purchase any of these resources for your child, please complete an order on gateway by **4th November 2025**. We strongly recommend that every student has good revision resources that work for them. Please discuss with your child which resources they think would best support them in Science.

Yours sincerely,

Ossian Hynes
Head of Science
