

November 2025

End of term 'in class' maths tests.

Students in years **7, 8, 9** and **10** will sit end of term tests and this will cover the content they have covered so far this year. Below are the weeks each year group will sit the tests in lessons. The tests last for 50 minutes and your child's class teacher will tell them which lesson that week the test will take place.

Next week, students will be given a paper copy of a revision booklet that they can choose to work through in preparation for the tests. Two weeks before the exams there will also be some optional revision tasks set on Sparx maths.

W/b 8th December – Years 7 & 10

W/b 15th December – Years 8 & 9
